EDUCATION

Texas A&M University

Master of Science in Finance

Mays Business School

College Station, Texas

May 2028

Cumulative GPA: In Progress

Texas A&M University

Bachelor of Science in Computer Science, Minor in Math

College of Engineering

College Station, Texas

May 2027

Cumulative GPA: 3.60/4.00

PROFESSIONAL EXPERIENCE

Ryan LLC

Severance Tax and Software Engineering Intern

Houston, Texas

May 2026 – August 2026

- Developed **6 production automation tools** using PowerShell, JavaScript, REST APIs, and SSIS to streamline severance-tax research, regulatory document retrieval, and automated reporting workflows, saving **24–36 hours of manual work annually**
- Built batch processing tools to retrieve **100s of regulatory filings** and search **100K+ PDF pages** that generate an automated Excel report spanning **6 categories** with data validation, caching, and allowing resumable processing for the entire firm
- Automated a **7-step RRC pipeline** for **52 annual runs**, enabling **1-click** data migration into Ryan's SQL Server databases

Switchless

Hardware and Software Engineer

College Station, Texas

January 2025 – May 2025

- Contributed to hardware and firmware development, presenting to angel investors and securing **\$300K in seed funding** stage
- Designed **4 EasyEDA schematics** for smart switches in new Houston homes, enabling AI automations for **1,000+ users**
- Built embedded-C modules for switch control, signal processing, and optimizing responsiveness across all deployed switches

TanChes

Front Desk Level One Helpdesk

Houston, Texas

May 2023 – August 2023

- Delivered Level 1 tech support to **100+ users**, resolving hardware, software, and network issues; handled **20–30 tickets** daily
- Deployed, cabled, and configured **14 servers/network devices** for data center operations, securing system reliability/uptime
- Authored technical documentation, including troubleshooting guides and setup procedures to enhance workflow efficiency

LEADERSHIP & INVOLVEMENT

Enhabit Home Health & Hospice

Hospice Care Assistant

Bryan, Texas

June 2024 – July 2024

- Offered emotional support to **2** struggling, terminally ill patients, assisting with end-of-life care during the final stages of life
- Supported **5%** of the patients with non-medical needs and helped maintain emotional well-being in a supportive environment
- Fostered trust and reduced patient anxiety and isolation through regular visits, empathetic conversations, and attentive care

Aggie Lemons

Hardware Engineering Member

College Station, Texas

May 2024 – Present

- Built a low-power gear shift indicator using transistors and LEDs, improving driver lap time and cutting power use by **~60%**
- Integrated system into the race car's harness and tested in real time with drivers improving lap times by up to **0.3 seconds**
- Developed custom Arduino software with driver-specific RPM thresholds for LED ignitions, improving usability across users

National Security Language Initiative for Youth

U.S. Department of State Scholarship Recipient

Jeonju, South Korea

May 2022 – August 2022

- Selected from a national pool of **10K+ applicants** (**~11%** acceptance) for the NSLI-Y Korea study abroad summer program
- Completed **120+ hours** of intensive Korean language training and cultural immersion, achieving near-fluent proficiency
- Engaged in homestay experiences with local families to gain firsthand experience of Korean traditions and community life

Spread the Music Association

President

Sugar Land, Texas

August 2019 – August 2023

- Directed a nonprofit of **150+ student musicians**, organizing monthly performances at hospitals, senior centers, and venues
- Coordinated annual benefit concerts that raised nearly **\$5,000 for global education** and women's empowerment programs
- Developed a digital archive of past concerts and member portfolios, enhancing recruitment for future seasons by **12%**

SKILLS, ACTIVITIES & INTERESTS

Skills: C/C++, Python (scikit-learn, OpenCV, TensorFlow, PyTorch), Java, LaTeX, HTML, CSS, JavaScript, SQL, R, Fusion360

Activities: Aggie Investment Club, Aggie Lemons, Society of Asian Scientists and Engineers, Intramural Sports, The Big Event

Interests: Momentum Analysis, Soccer, Baduk, Sudoku, Kelly Criterion, Formula 1 Load Transfer Analysis, Černý's Etudes

Languages: Korean (Fluent), Spanish (Elementary)
